

DEVELOPING EXAMS AND ASSESSING PERFORMANCE FOR OVER 140 YEARS

Trinity College London is an international exam board and independent education charity offering a unique range of qualifications in English language, drama, music and combined arts.

A leading international exam board

Trinity College London has been providing assessments since 1877 and today over 850,000 candidates a year take a Trinity qualification in over 60 countries around the world. We specialise in the assessment of communicative and performance skills and our qualifications are specifically designed to help students progress. Our aim is to inspire teachers and learners through the creation of assessments that are enjoyable to prepare for, rewarding to teach and that develop skills that are needed in real life.

Our exams are delivered through an international network of expert representatives, examiners, academics and support staff.

Exams that change lives

Our exams count. They have the power to change people's lives. A Trinity qualification can lead to a place at university, a new job or even a new life in another country. Because our qualifications focus on developing communicative and performance skills, whether in language or the arts, they help equip people with the transferable skills needed for life in the 21st century.

Recognised quality you can trust

Our qualifications are recognised by regulators, governments and universities as sound evidence of students' achievement. Trinity's GESE and ISE qualifications are approved as Secure English Language Tests (SELTs) by UK Visas and Immigration (UKVI).

Our GESE and ISE English language exams carry the prestigious Q-mark from ALTE – meeting the stringent criteria of the Association of Language Testers in Europe. Our TESOL qualifications for English language teachers are recognised as among the best in the world and our drama and music exams can take candidates all the way from beginner to a career in the performing arts.

Working in partnership

We work closely with organisations across the world to provide the assessments and qualifications that they need. Our partners range from national governments and educational institutions to publishers and academic specialists.
